

September 10, 2004

Dear Colleague,

I am pleased to enclose a copy of the new Accessibility Directorate resource for your municipality: ***Making Accessibility Happen: A Handbook for Municipal Accessibility Advisory Committees.***

The Handbook was developed to enable Municipal Accessibility Advisory Committees to work more effectively with municipal council members and staff in completing their annual accessibility plans. We ask that you share this capacity-building resource with your Accessibility Advisory Committee (AAC) members for their use.

The format of this product is in a print binder to enable municipal councils and advisory committees to easily reproduce sections that are of particular interest to them. One binder is being provided to each municipality with an AAC, across the province.

Copies of this product will also be available on CD in the next few weeks. Notice of how to obtain the CD will be posted on the Accessibility Ontario web site at: <http://www.gov.on.ca/citizenship/accessibility/>.

Thank you for your continued support on the ODA.

Sincerely,

Nadia Temple, Director,
Accessibility Directorate of Ontario
