Attention: D. Kelly, Regional Clerk

Dear Mr. Kelly:

**Re: Health Care Funding in Ontario**

For your information and records, at its regular meeting of Council held on March 23, 2009, the Municipal Council of the Town of East Gwillimbury enacted as follows:

“BE IT RESOLVED THAT the presentation by T. Asmi, Growing Communities Healthcare Alliance, regarding Health Care Funding in Ontario be received; and

WHEREAS Ontarians believe in the principle of fairness; that fairness defines who we are and how we live;

WHEREAS the high growth communities in Ontario grow at more than twice the rate of the provincial population growth rate and are aging at twice the provincial rate;

WHEREAS population growth in these regions will further intensify due to Ontario's 30-year growth plan, *Places to Grow*;

WHEREAS as of 2008/09 Ontarians residing in the Local Health Integration Networks (LHINs) with high growth communities are receiving \$255 less per resident in provincial funding for local hospital services compared to residents in other LHINs in Ontario, which translates into a \$1.4 billion annual operating funding gap for local hospital services – and these provincial funding gaps are worsening each year;

WHEREAS residents of the Town of East Gwillimbury as part of the Central LHIN are receiving \$226 less per resident in provincial funding for local hospital services compared to the average Ontarian, which translates into a \$282 million annual operating funding gap for local hospital services;

WHEREAS Ontarians living in high growth communities of the GTA/905 are receiving \$193 less per resident for provincially funded local social services when compared to the average Ontarian, which translates into a \$641.9 million annual operating funding gap for local provincially funded social services – and these provincial funding inequities are also worsening each year;

WHEREAS the Government of Ontario has acknowledged the growing funding gaps for hospital services in high growth communities by committing during the 2007 provincial election to provide \$100 million in additional annual operating funding to high growth hospitals;

WHEREAS the provision of \$30 million in hospital growth funding for 2008/09 still means that the provincial funding gap for hospital care continues to widen in high growth communities;

WHEREAS the Government of Ontario has announced that it is developing and will implement a new Health Based Allocation Model (HBAM) to allocate new health care resources to Local Health Integration Networks based on patient care needs and to address health care funding inequities in Ontario;

WHEREAS the Government of Ontario has successfully secured from the federal government greater fairness for Ontario resulting in additional funding for Ontario through the Canada Health Transfer;

BE IT RESOLVED THAT in order to improve timely and local access to hospital care in York Region and across high growth communities in Ontario, the Council of the Town of East Gwillimbury asks the Government of Ontario to:

1. Speed up implementation of the \$100m hospital growth funding commitment ensuring that growth funding is targeted to high growth hospitals and provide growth funding for social services;
2. Quickly implement "Health Based Allocation Model" (HBAM) i.e., population-needs-based funding for provincial hospital and health care services and develop a population-needs-based funding formula for social services; and
3. Develop a health care and social services growth plan for Ontario high growth communities to complement *Places to Grow*;

AND THAT this resolution is forwarded to the Premier of Ontario, the Minister of Health and Long-Term Care, the Minister of Finance, the MPPs for York Region, High Growth Communities' Mayors and Chairs, and the Central LHIN."

If you have any further questions with regard to the above-noted matter, please do not hesitate to contact the undersigned.

Yours truly,

Anna M. Knowles  
Deputy Clerk
