Subject: Meeting April 25, 2007

Hi folks, I want to put my thoughts re the election of the AAC Committee down on paper because I cannot be there as you know. I hope the Committee will elect a strong person as Vice-Chair and one who will be regular in attendance and on time. I understand the rationale for the Chairperson being an elective representative but they are very busy people and experience has shown that they can be called away at a moment's notice or the meeting that they are attending can run late making them late to start our meeting sharp at 4:00 p.m. So the Vice-Chair has to make sure that they are well prepared and present to start the meeting on time.

Should my name be put forward, I would be honoured to stand again but it would be nice for someone else to have the experience that I had. You people were great and I thank you for that. I would also accept the nomination to be part of the AODA sub-committee. Thanks again for all your help and guidance the last three years. I am disappointed that I am not able to attend the first meeting and express my thoughts personally but all best and I will be there for the second meeting.
