Subject: 2007 Sustainability Strategy

Attention: Bruce Macgregor, Chief Administrative Officer

I would like to congratulate York Region on it's 2007 Sustainability Strategy. As the Director responsible for sustainability at Purolator Courier, one who has been involved in sustainability for 15 years and a resident of Richmond Hill I was pleasantly surprised when I came across the strategy document on your website. It looks like a well designed and comprehensive strategy. I am thrilled to see you have recognized the value of a sustainability strategy in integrating the values of sustainable natural environment, healthy communities and economic vitality. Issues such as climate change, the global economy, shortage of talent/employees and a fast growing region will create significant challenges for the future. An integrated strategy will be a key to success!

I do have one question. How might I learn more about the progress being made?
