Subject: deputation

For York Region Council

We'd like to make a deputation to the Regional Council regarding the transit strike and the lack of action / solutions being tabled.

We represent thousands of low income earners who have been affected now to the point of losing jobs, houses, missing doctor and job opportunity appointments, kids unable to work over Christmas - too late now for them and on and on.

We've been deluged with calls for accessing food as well and not from food banks as they find that system degrading. The lack of a sense of urgency is alarming and frankly, we feel, discriminatory.
