Subject: to present a new recycling product to the Solid Waste Committee Feb.13

Dear Denis;

My name is Mike Ralph, of Andala Ltd., and I wish to present a new recycling product, that our company has developed, at the Feb.13th Solid Waste Committee. This unique product is called the Trash Buster and it is a lightweight, 2 wheel, storage and transporter of recycling bins to curbside unit. They are already available at select hardware and home improvement stores.

I have attached the electronic brochure and pictures of a neighbourhood in St.Catharines ON where the "Buster" is in use. Please visit our website at www.trashbuster.ca I thank you for your attention to this request and will look forward to your reply. Regards,

Mike Ralph

Trash Buster... recycling made easy

Advantages for Homeowners or Tenant

- **Blue boxes** will be subjected to less wear and tear which will make them last longer.
- **An organized** system for blue box containment.
- **Easy, neat** and compact storage of blue boxes.
- **Cardboard** (pizza boxes, etc.) is securely stored on 'Buster' between the recycling box and side wall.
- **No lifting**, less physical exertion by user to encourage maximum use and adherence to the municipal collection standards.
- **One easy** delivery to curbside of boxes and contents.
- **Adjustable shelves** accommodate any size of blue boxes.
- **8-inch wheels** to provide smooth transport over any and all terrain during all four seasons.
- **The vertical** containment of boxes and shelving will reduce spill and eliminate the unsightly mess caused by paper and cardboard products blowing around the neighbourhood.
- **Neat and tidy** vertical storage of boxes at curbside after content removal, eliminating the community eyesore of blue boxes strewn all over the boulevard and driveways and the danger of boxes ending up in the middle of the street.
- **Reduces the** risk of residents losing blue boxes.
- **Easy one** trip transporting of blue boxes back to storage area.
- **Easy access** to all three boxes to deposit material into while in the storage 'mode'.

Recycling made easy.

Recycling made easy.

*Introducing the new
TRASH BUSTER™ recycling caddy.*

A product designed to store municipal blue boxes and their contents within a two wheeled up-right transporter for easy, neat and contained curbside delivery. This patent pending, lightweight, and durable TRASH BUSTER™ will enhance all municipal recycling programs by making it much easier and more convenient for residents to maximize their recycling participation and increase **DIVERSION** without the risk of contamination.

*The TRASH BUSTER™ is a product long overdue for municipalities to enhance their recycling programs by offering their residents a product that will encourage them to maximize their participation. Convenience, neatness and less physical exertion are just a few of the advantages that make the TRASH BUSTER™ a valuable product in turning your municipality's very good recycling program into an "award winner" as you increase **DIVERSION!!***

Advantages for Municipality & Waste Department

- Vertical containment of boxes in the TRASH BUSTER™ means much less lifting from ground level for waste employees
- Easy removal of boxes from the TRASH BUSTER™ (slide out)
- Easy return of boxes into the TRASH BUSTER™ (slide in)
- Reduced spillage of contents upon emptying
- Organized vertical containment of blue boxes on the TRASH BUSTER™ will result in a quicker and more efficient pick up of recycled materials by the waste company.
- The vertical containment of shelving and boxes **protects contents from the elements (wind) eliminating the unsightly mess caused by paper and cardboard products blowing around the neighbourhood**
- Neat and tidy vertical storage of blue boxes on the TRASH BUSTER™ at curbside after content removal, eliminating the community eyesore of blue boxes strewn all over the boulevard and the danger of boxes ending up in the middle of the street.
