Dear Ms. Simmons,

On behalf of The Honourable Herb Dhaliwal, Minister of Natural Resources, I am presenting you with this plaque in recognition of your organization's participation in the Office of Energy Efficiency's Energy Innovator's Initiative and your efforts to reduce greenhouse gas emissions that contribute to climate change.

Natural Resources Canada appreciates the voluntary commitment your organization has made in support of Canada's goal to reduce harmful emissions through greater energy efficiency. It is our hope that you will display this plaque in a place of prominence within your organization as testimony to your staff and stakeholders to the leadership role you have assumed by becoming part of the climate change solution.

Our collective resolve to advance Canada's environmental goals through energy efficiency can make a difference. Equally important, cooperation in promoting wise energy use can contribute to Canada's economic competitiveness and create jobs. Together, we will make the Energy Innovators Initiative a Canadian success.

Once again, thank you for your tremendous efforts. Congratulations!

Yours sincerely,

Neil MacLeod  
Director General  
Office of Energy Efficiency
