

SUPPORT OF THE STRONG COMMUNITIES COALITION (SCC)

WHEREAS the Strong Communities Coalition (SCC) recommends that the Government of Ontario immediately provide growth funding for health and social services in the GTA/905 Regions of Durham, Halton, Peel and York;

AND WHEREAS the SCC recommends that the Provincial Government revise the way it allocates funding for health and social services across Ontario so that it is distributed on the basis of population size, growth and characteristics – that is, fundamentally *population-based*;

AND WHEREAS the SCC recommends that the Provincial Government develop a health and social services strategy for Ontario's high-growth regions to complement *Places to Grow*, and that this strategy be developed in consultation with the GTA/905 stakeholders, including members of the Strong Communities Coalition.

NOW THEREFORE BE IT RESOLVED THAT the Human Services Planning Coalition supports the Strong Communities Coalition and its recommendations to the Ontario Government.
