Dear Mr. Kelly:

Re: Development Charges Legislative Constraints Impacting Ontario Municipalities and Hospitals – (SRFIN.06.077)

Richmond Hill Town Council, at its meeting on October 23, 2006, approved the following resolution:

"WHEREAS the last update of the *Development Charges Act 1997* was nine (9) years ago;

AND WHEREAS the current *Development Charges Act* does not permit the collection of development charges to fund growth related capital costs for the following services which were previously eligible under the old Act;

- Cultural facilities such as museums, theatres and art galleries;
- Hospitals;
- Waste management services and facilities;
- Headquarters for municipal administration;
- Computer equipment.

AND WHEREAS the current *Development Charges Act* requires a mandatory 10% reduction in the charge for growth related "soft services" such as community centres, libraries and parks;

AND WHEREAS the requirement in the current *Development Charges Act* to collect based on the average service level over the previous ten year period is too restrictive and creates practical calculation and implementation issues;

AND WHEREAS the current *Development Charges Act* does not adequately provide for financial solutions or contributions to meet the challenges of growth that evolve over time (such as transportation through subways and forms of higher order transit);

AND WHEREAS the Province indicated to the Municipal Finance Officer's Association of Ontario (MFOA) in August 2005 that a review of the *Development Charges Act* would commence in the near future;

AND WHEREAS the growth related capital costs are significant, growth continues to occur, and growth should pay for growth;
