Subject: Oak Ridges Moraine Sewage Pipe

I am writing you to let you know that I do not support breaking the Oak Ridges Moraine Conservation Act to lay the proposed new 19th Avenue York Region sewer pipe.

Many people from many different regions of Ontario fought very hard to help bring about the protection of the Oak Ridges Moraine from development. It is essential to both our and our ecosystem's health to protect this sensitive natural area. Nobody believes that once the sewer pipe is installed there won't be development on sensitive Moraine lands. It is inevitable.

I urge you to do what you know is the right and brave thing: oppose the sewer pipe.

Sincerely,

Margot Boyd
