Subject: 19th Avenue sewer pipeline

Hello. My name is Sabrina Malach. I live in Thornhill. I am thoroughly disturbed at the amount of destructive urban sprawl, you our leaders, have permitted to occur in York Region. As you know, this "development" is taking place on Ontario's most fertile soil. What do you suppose will happen when the price of oil goes so high we won't be able to afford to import food? Where will our food come from?

This is not the issue of the day. My concern today is with the proposed massive 19th Avenue sewer pipe. I am totally against this plan. A sewer pipe through the sensitive Oak Ridges Moraine natural linkage area violates the Oak Ridges Moraine Legislation. This pipeline will promote more sprawl for decades to come. It will only set up the Moraine and the Greenbelt for more unsustainable development in the future. PLEASE PROTECT ONTARIO AND "KEEP IT BEAUTIFUL" like our licence plates say. Stop the destruction of my homeland. Please, I beg you. York region is becoming an ugly, traffic-ridden place to live. WE need green spaces and we need them protected forever. Stop giving into the tempting dollars that the developers offer you and do something for your grandchildren and my unborn child. DONT ALLOW THIS PIPELINE TO PASS

THROUGH SUCH A SENSITIVE AREA> There are alternative routes it can follow.

I look forward to a response from each one of you and trust that you will do what is right for people, our water and the environment.

Thank you,

Sabrina Malach
