Subject: 19th Avenue Sewer Trunk Line

Dear Members of the York Region Council,

I am writing to ask that you not approve the plan to install a new sewage pipe along the 19th Avenue route which you are to consider this Thursday.

As a student studying environmental science I appreciate the importance of protecting the Oak Ridges Moraine as an intact system, and the true costs associated with opening the area to further urban sprawl. No decision which runs contrary to the Oak Ridges Moraine Conservation Act can be considered a sound one.

Best regards,

Johnny Westgate
