Subject: Deputation

As a representative of Communities First in York Region, I respectfully request the opportunity to present a deputation to Council at the June 21st Council meeting. My concerns are in regards to the per tonnage costs in a "put or pay" arrangement that the residents of York Region will be expected to pay if incineration of solid waste is selected over other alternatives of waste disposal. Based on diversion projections the residents will be paying for waste they are not producing.

Respectfully yours,

Ed Candolini for Communities First, York Region
