Toronto, Ontario M5S 2T9

Dear Ms. St-Denis:

Re: Donation of Decommissioned Ambulance

As part of York Region Emergency Medical Services Fleet Maintenance Program, older ambulances are decommissioned and replaced with new vehicles each year.

The Regional Municipality of York's Health and Emergency Medical Services Committee has requested that your organization be informed of our fleet replacement program in hope that you may have use for one of our decommissioned vehicles. This year, the Region is donating a decommissioned ambulance to Friends of Ecuador, a not-for-profit organization whose main purpose is to promote charitable activities, education and exchange of knowledge related to Ecuador.

Should your organization be further supported with the donation of a decommissioned ambulance, I would be pleased to provide you with additional information relating to the vehicle specifications and any other information you may require.

I have attached a schema and basic specifications information for your consideration.

Sincerely,

Norm Barrette
Director, Operations

NB/dl

Attachment: schema and specifications information
