Dear Sir/Madam,

Please find attached brochures for a collaborative undertaking entitled Play Works Partnership. The goal of this partnership is to bring together key representatives from leading organizations concerned about the future of our youth. Play Works Partnership exists to champion the social, environmental and economic benefits of investing in and maintaining youth recreational opportunities, spaces and programs at the community level.

As an organization that has been providing quality recreation and social services for both children and youth within the region for the past 10 years, we support this partnership and the work that it is undertaking. I would like to request that copies of this brochure be distributed to members of the Community Services and Housing Committee and the Youth Advisory Committee.

Thank you for your attention in this matter.

Sincerely,

James Thomson
Director – Programs and Services
