5. Community Programs & Infrastructure Report CPI-2011-08; Regional Inflow and Infiltration Strategy Endorsement

Moved by: Councillor Eaton

BE IT RESOLVED THAT Community Programs & Infrastructure Report CPI-2011-08, dated March 21, 2011 regarding the Regional Inflow and Infiltration Strategy and the Long Term Water Conservation Strategy be received; and

THAT Council endorse the recommendations of York Region report titled "Inflow and Infiltration Reduction Strategy" as endorsed by Regional Council on February 17, 2011 and as summarized herein; and

THAT through development and endorsement of the Strategy, York Region and the local municipalities commit to:

- Develop and maintain this Strategy including the programs, goals and inter-agency and regulatory reporting requirements for staged reduction of inflow and infiltration over the next 20 years;
- Recommend to future Councils for their consideration that they commit funds for inflow and infiltration reduction that is economically justified by the avoidance of future treatment and conveyance costs;
- Where logistically and economically feasible and advantageous to do so, measure flows before and after carrying out works on sewers and document inflow and infiltration expenditures and flow reduction measures;
- Continue to work together in a collaborative manner over the life of the Strategy and to commit the appropriate staffing and financial resources toward implementation of the Strategy based on the Towns business case analysis and available resources.
