Ms. Karin Price
Committee Co-ordinator
Regional Municipality of York
17250 Yonge Street
Newmarket, ON L3Y 6Z1

Dear Ms. Price:

Please accept this letter as a request by the Ontario Power Authority to make a deputation before the Planning and Economic Development Committee of York Region at its meeting of November 28, 2007.

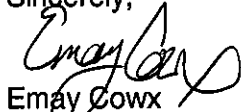

The Ontario Power Authority is the provincial agency responsible for ensuring security and reliability of electricity system supply on a province-wide and local basis; including consideration of conservation resources. One such local area involves Northern York Region.

The OPA has been closely involved with your community in developing and implementing a number of solutions to address the electricity supply and reliability needs of Northern York Region over the last two years. These solutions are the outcome of the consultations and a plan was submitted to the Ontario Energy Board in 2005. In this regard, our deputation will address the OPA's work to date and provide an update on the next steps in our efforts to ensure Northern York Region's electricity supply is secure and reliable.

The OPA will be represented by Jason Chee-Aloy, Director, Procurement - Electricity Resources who will deliver a brief PowerPoint presentation. In order to provide you with a complete update, we kindly request the Committee's indulgence in allowing a presentation of 10 to 15 minutes.

At your earliest convenience, please contact Claire Willison at either 416-969-6080 or at Claire.willison@powerauthority.on.ca to confirm our attendance and make appropriate advance arrangements. If you have any questions or require additional information please contact Ziyaad Mia at either 416-969-6025 or Ziyaad.mia@powerauthority.on.ca.

Sincerely,

Emy Cowx
Manager, Stakeholder Engagement and Government Relations
