Subject: Re: Woodbine Avenue at Old Homestead

Dear Calvin,

I appreciate receiving the update on the improvements scheduled for Woodbine & Old Homestead and at the Baseline & Woodbine intersection. I did observe that you had already taken steps to make the Baseline curve easier to navigate.

I want to take this opportunity to thank you and your colleagues for all you are doing to make our roads safer for those using them. I was very pleased to see you are installing lights at Woodbine and Old Homestead next year, and moving the light poles and adding warning signs at the Baseline intersection will certainly make a difference for those entering this dangerous curve.

Sincerely,

Pat Laverock
