Dear Chair of the Transit Committee,

Creative Outdoor Advertising is a Stouffville Company that employs over 80 people, 30 of which are located at our head office here in Gormley. We are the largest in our industry segment in North America. We are working to expand in to the United States, but our contract to provide the finest Street Furniture in the world to the Region is critical to our continued growth and stability. We have proudly presented York Region as our model to cities across North America, and the Regions importance to our firm cannot be overstated.

I would ask that I be permitted to address the "Co-Ordinated Street Furniture Program" Item 2 of Report 5 of the Transit Committee in the Regional Council Meeting of June 21st, 2007. The content of this report carries potentially large consequences to our firm. I would like to address the Transit Committee meeting on September 20th.

I appreciate the opportunity to address this report as a delegation to the committee.

Thank you,

David Gray
President

cc. Denis Kelly, Regional Clerk
