A follow up of outstanding audit recommendations for audit reports issued prior to April 1, 2008 indicates that management remains cognisant and active in implementing Audit Services recommendations. There were 117 audit recommendations originally issued through the ten audit reports currently on our list for follow up. At March 31, 2008, 103 recommendations, or 88% of the original 117 recommendations issued, have been implemented. This is a very high implementation rate when compared to other audit departments.
