Dear Chair Fisch:

**Re: Expansion of Don Mills LRT Environmental Assessment
to Major Mackenzie Drive**

Thank you for your letter of 18 June 2008.

As you know, the TTC shares your vision of light rail expansion throughout the City of Toronto and the GTA as practical, achievable way to address the problems associated with automobile over-dependency and congestion. We can move people better, faster and more efficiently if we provide them attractive transit options such as light rail transit (LRT.) Your continued support and cooperation on these projects is very encouraging.

The current and ongoing environmental assessment for the proposed Don Mills LRT—a component of the TTC's Transit City LRT network—will continue on schedule as planned in order to meet our very aggressive deadlines. However, I have forwarded to staff at the City of Toronto and TTC your suggestion for its expansion to Major Mackenzie Drive for consideration and comment on possible opportunities. I will be pleased to share their progress with you.

Yours truly,

Adam Giambrone
Chair
Toronto Transit Commission (TTC)

Toronto City Councillor
Ward 18 Davenport

cc: Mayor David Miller
Shirley Hoy, City Manager, City of Toronto
Gary Webster, Chief General Manager, TTC
