By hand through Clerk of Council

July 26th 2012

Donation of Ambulances for use Guyana

We are extremely appreciative of the donation of two retired ambulances approved by regional council at your meeting in May this year.

In due course, we will receive this donation with gratitude. Since this information was made public, courtesy of the ERA Banner, we received numerous calls of offers of tangible donations from other regional residents and that itself adds momentum for us to continue helping people with their unique challenges in developing countries and specifically Guyana at this time.

We have been assisting the Caribbean for fourteen years now and have always met our commitments in all our endeavours. We now commit that the donation will be in service in Guyana fully functional to achieve its purpose and that they will be mechanically sound and that the life saving mechanism and devices are intact and protected during shipment. In this regard a member of our advisory panel has undertaken to manage this process. He is Mr. Keith Laycock whose full time job is of that of Director of Bio Medical Engineering at Sunnybrook Health Science Centre (Hospital).

We are also tentatively planning that the ambulances will arrive in Guyana for an official handover anytime during Tuesday November 27th 2012 to December 8th 2012. We would dearly appreciate if members of council can join us as a team of dignitaries to present it either to the president of Guyana or his designate available at the time. Our dignitary's trip will be coordinated through the office of the Canadian High Commissioner in Guyana observing all of the appropriate protocols.

We also wish to formally acknowledge the contribution of the Deputy Mayor of Richmond Hill, Regional Councillor, Vito Spatafora and the support of our Mayor David Barrow for this contribution from Council and residents of York Region.

We will let you know of the hand over plans and schedule as it evolves and would ask for our Mrs. Pamela Harakh to dialogue with your offices to explore the presentation trip above.

Again, with gratitude

Harry Harakh
President
