NOTES

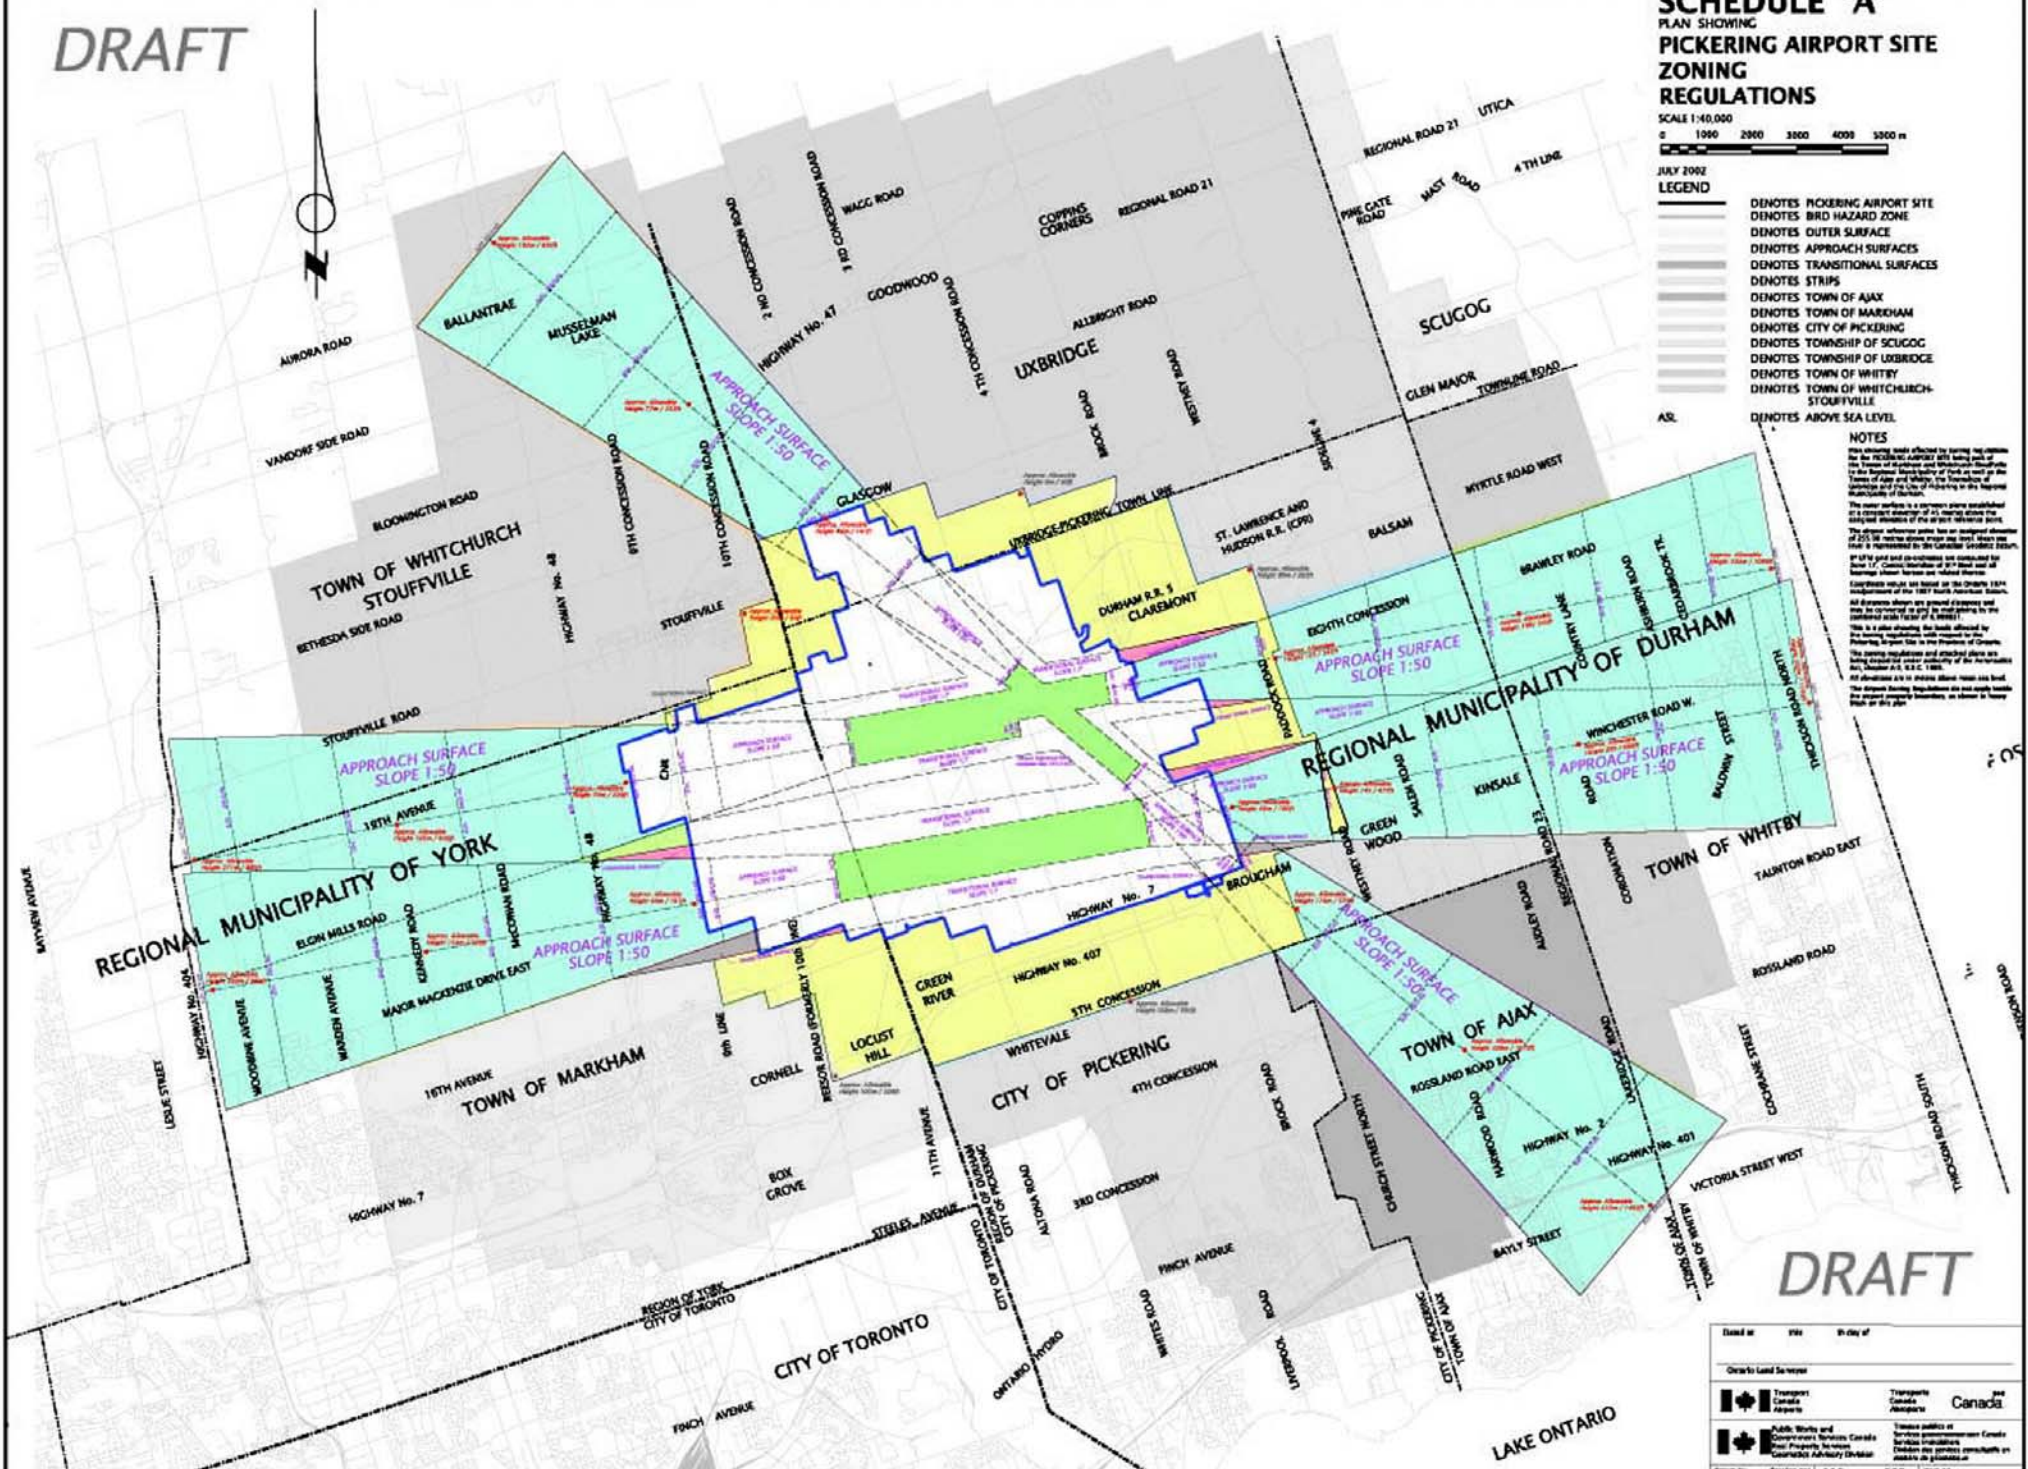

1. This zoning map is a plan showing the boundaries of the various municipalities and the various zones within each municipality. It is not a map of the land itself, but a map of the zoning regulations that apply to the land.

2. The map is based on the 1997 Census of Canada, which shows the population of each municipality and the various zones within each municipality.

3. The map is based on the 1997 Census of Canada, which shows the population of each municipality and the various zones within each municipality.

4. The map is based on the 1997 Census of Canada, which shows the population of each municipality and the various zones within each municipality.

5. The map is based on the 1997 Census of Canada, which shows the population of each municipality and the various zones within each municipality.
