Re: Huntington Rd.

Someone needs to speak for this area
Here's my try (because sound travels)

Due to recent changes on Nashville Rd.
Huntington (south) has become a noisy
speedway. Considering we already have

27 & 50 do we really need another 3

Since Nashville Rd. is full of speed
limits why not Huntington esp. from the

Cemetery north & beyond & Cemeteries just
as much as schools & churches. Our dearly

departed deserve respect. Maybe then we
wouldn't have noisy brakes & dangerous speed

Nashville extends by road east & west.

Unfortunately the east west roads have
become residential & the north & south

speedways... Huntington has been turned
into a truck route. People live there too.

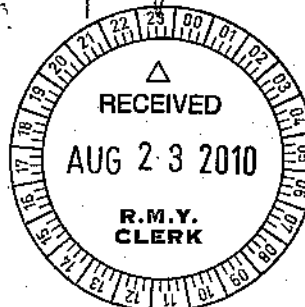

(although some would prefer they disappeared.)
People live near the intersection both ways.

Sunday is the only day we get relief from
the trucks & speeds. Will the road stand it?

Changes bring problems esp. from industrial to residential
Let there be a start.
