**Re: Request for Peel Region Sanitary and Water Service to
John Paone Property – 10021 Highway 50
Frank Mammone Property – 10335 Highway 50
North of Major Mackenzie Drive
City of Vaughan
Your File No. W00**

In response to your letter dated January 22, 2003, this is to advise you that Public Works has considered your request and is prepared to recommend providing sanitary and water services to the Paone and Mammone properties, subject to both Region of Peel and Region of York Council approval for the cross-boundary servicing.

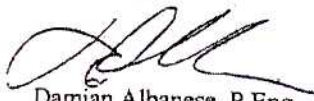

In addition to Council's approval, the following information is required:

- Capacity of water required for Mr. Paone's property
- Size of water service connection and location requested by Mr. Paone
- Size of sanitary service connection and location requested by Mr. Mammone

A water service study may be required if the required service size is larger than a standard domestic water service, in order to determine if the Region's municipal system can supply the amount of water requested for the Paone property. Should Council approve of the proposal, the Connections section will handle the installation of the services and will adhere to Peel Region standards and specifications. Please be advised that all costs associated with providing the services will be at the property owners' expense. In the event that a watermain extension is required on Highway 50, the property owner will also be responsible for all expenses associated with the extension. Upon receipt of your acceptance to the above conditions, we will bring forward a report to our Council for review of the proposed cross-boundary servicing.

If you have any questions, please contact Alex Masley at (905) 791-7800 extension 4370.

Yours truly,

Damian Albanese, P.Eng.
